PROFILE

Captain Hogan gained unique marine experience in the financial management and operation of domestic inter-island ferries and terminals. He has been successfully, and regularly, audited in accordance with the ISM Code, International Conventions, and the United Kingdom's Best Value protocols for local government.

He has provided Expert Witness at courts.

He has also acquired the distinctive nautical experience of the management and **commissioning** of fishing fleets and ports supporting a vertically integrated Canadian seafood corporation. This experience has been augmented by involvement in the licensing of fish-farm installations.
